Leigh House Hospital

THE NURSING ROLE

The nursing team is the group of staff with whom you will have the most day to day contact whilst at Leigh House.

Members of the nursing team provide care on a 24 hr basis, and you will be allocated to a specific 'primary nurse' and one or two 'associate nurses' as part of your 'core team'.

They will be responsible for co-ordinating your treatment during your stay. These nurses will meet you on a regular basis, to help identify areas in which you may be experiencing difficulties. They, along with other team members, will work with you and your families in agreeing a plan of treatment, appropriate to your needs.

The nursing staff will attend meetings with you, your family and other professionals regarding your care, throughout your stay at Leigh House.

We look forward to working with you.
